I, James Bechtel, state that I am a representative authorized to sign on behalf of The United States of America, as Represented by the Secretary of the Navy ("The U.S. Navy"), identified below as the assignee of less than the entire right, title and interest in and to the above-identified patent application, U.S. Serial No. 10/698,970. The extent, by percentage, of The U.S. Navy's ownership is 25%. I have reviewed all the evidentiary documents accompanying or referred to in the instant Terminal Disclaimer and certify that, to the best of my knowledge and belief, title to the above-identified application is in the name of The U.S. Navy.

The U.S. Navy of Ballston Tower One, 800 North Quincy Street, Chief of Naval Research Office of Counsel (Attn: Code OOCIP), Arlington, VA 22217 is the assignee of less than the entire right, title and interest in and to U.S. Patent No. 5,810,801 by virtue of the Assignment recorded in the United States Patent and Trademark Office at Reel 009354, Frame 0068, on July 30, 1998, by inventor Edward V. The U.S. Navy hereby waives and disclaims, except as provided below, the terminal part of any patent granted on the above-identified application which would extend beyond the full statutory term defined in 35 U.S.C. 154 and 173 of U.S. Patent No. 5,810,801. The U.S. Navy hereby agrees that any patent so granted on U.S. Serial No. 10/698,970 shall be enforceable only for and during such period that the legal title to said patent shall be the same as the legal title to

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made in the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
